

The Anti-M Newsletter

September 15, 1993

If you're not on our mailing list, telephone list, or if your name or address information is incorrect or even if you just want to leave us a message, call the Anti-M 24-hour Hotline at (602) 230-4118.

Must be that time of the month again. This newsletter always seems to come out when we are strapped for time. Summer has been very busy for ANTI-M and September has proven to be no exception. The big news for this month is the DEMO RELEASE PARTY at the Library Cafe on October 1st. What's in it for you, you ask?...

A FREE CASSETTE!!!!!!!!!!!!!!!!!!!!

That's right, just bring this newsletter to the Cafe on October 1st and you'll receive a copy of our four song demo. It's called EXHIBIT "A" and contains four of the originals from our upcoming CD: *Never Gonna Change*, *Shoot Me*, *Love Without Treason*, and *Hard Time*. And it's absolutely free to everyone on our mailing list, but remember this: **YOU MUST BRING THIS NEWSLETTER TO THE DEMO RELEASE PARTY TO GUARANTEE YOUR FREE TAPE!** In fact, anyone who joins our mailing list that night also gets a free tape while supplies last. Spread the word, it will be quite a party.

Speaking of promoting originals, did you hear us on KUPD's Local 98 earlier this month? They played our song, "Until the Fire Is Gone." The version they played was from our first album entitled **BEYOND THE EMERALD CITY**, however, we will be releasing a new version on our upcoming CD.

The quest continues to replace our former drummer, *the world's greatest Elvis fan*, Roger Wiedabach. We have been taking calls from our ad's in **Music Voice** and **New Times** and this weekend we will be holding auditions. If all goes well we will be introducing the newest member of ANTI-M at our DEMO RELEASE PARTY, however, Roger has agreed to play the show. Roger also helped us out by playing our **Library Nightclub** show last week so we once again owe him a beer and many thanks.

We are still preparing to perform the NACA showcase in Sacramento in November. This show will only last twenty minutes, but the planning for the transportation, promotional material, funding, and musical preparation will take several weeks. Meanwhile, Ed & Mark are still hosting *Open Mic Night* on Sundays at the **Priceless 3** in Mesa, and occasionally hosting "Unplugged" at the **Library Cafe** on Mondays. Well, that's about all the new news for this month. So until next month's letter, keep rockin' and thanks for the support!

See you at the shows!

Some cool people we'd like to thank this month ...

Roger Wiedabach - For shortening your vacation to ride once again with the ANTI-M Gang!

Marlene Neubert - For airing our music to all of the valley's Red Rockers.

Don Crossland - Reprographics, the Party Palace, a drummer audition location, lunch at the HiLiter and his cynicism in general.

J.J. Terre - For the last-minute response in placing our drummer ad, producing a top-notch "rock rag" and just for givin' a damn about the local music scene.

Lori, Connie, Sage & Aris - For inspiration (and patience)!

Love is Dangerous

By Ed Clapper

Running away at the speed of light
I'm gonna forget you
I don't really know who was wrong or right
But I know I regret you

Lying awake, your vision burning in my mind
Falling in love is a fatal mistake
We make it time after time

Taught a lesson, cold and cruel
Love is dangerous
Never give your heart and soul
To someone you can't trust

Twisted between the bad and the good
It tears you up inside
The general rule is love is cool
If you like suicide

Love is dangerous
Love is dangerous

Pushed me too far, pushed me over the edge
You cut me to the bone
Set me on fire, lead me over the ledge To
leave me here alone

Love is dangerous
Love is dangerous

She cuts you once and she cuts you twice
But you like destruction
Every kiss is another slice
From the blade of seduction

Love is a game of pleasure and pain
You've got to be cruel to be kind
It's a game for the truly insane
It's driving me out of my mind

Love is dangerous
Love is dangerous
Love is dangerous
Love is dangerous
